More Facebook Misinformation
October 5
Example of group admin sharing COVID misinformation
Collective Action Network, a public group with almost 8k members, is the new version of the old ‘Collective Action Against Bill Gates - We Will not be vaccinated’ group that had 200k members. You can see here that it is run by a smaller account with the same name.
Facebook page with 50k+ followers sharing articles about COVID-19 from websites that publish false information about the virus and vaccines. The post on the left begins “Masks and respirators do NOT prevent the transmission of viruses.”
This page is literally named The Plandemic. It shares COVID misinformation.
When a guy who has enough money to end world hunger, end poverty, regenerate the soils and clean the oceans ... instead chooses to pump his money into releasing GMO mosquitoes, blocking out the sun, creating fake meat and producing toxic vaccines ... you have to ask yourself why?
