

conservativefiringline.com

A conservative politics site that publishes conspiracy theories and false information.

Proceed with caution: This website severely violates basic journalistic standards.

Score: 0/100

Ownership and Financing

ConservativeFiringline.com does not disclose its ownership. Joe Newby, a blogger who states on his Twitter account that he is a “full time IT guy and staunch conservative,” identified himself as the owner in an September 2020 email to NewsGuard.

In 2016, Newby co-authored a book with fellow Conservative Firing Line writer Adina Kutnicki titled “Banned: How Facebook enables militant Islamic jihad.”

The site runs advertising and accepts donations through Patreon, a subscription platform service that allows “patrons” to contribute funds. A link at the bottom of articles directs readers to a Patreon page for Joe Newby and Conservative Firing Line.

- ✗ Does not repeatedly publish false content (22points)
- ✗ Gathers and presents information responsibly (18)
- ✗ Regularly corrects or clarifies errors (12.5)
- ✗ Handles the difference between news and opinion responsibly (12.5)
- ✗ Avoids deceptive headlines (10)
- ✗ Website discloses ownership and financing (7.5)
- ✗ Clearly labels advertising (7.5)
- ✗ Reveals who's in charge, including any possible conflicts of interest (5)
- ✗ The site provides names of content creators, along with either contact or biographical information (5)

Content

Conservative Firing Line's About Us page says the site was founded “to inform, educate and inspire grassroots conservatives at all levels.”

The website portrays U.S. President Donald Trump and his allies in a positive light, and liberals and Democrats in a negative light. The site regularly warns about what it regards as growing internal threats to the U.S., including antifascists, and the Black Lives Matter movement.

Content is divided into sections including Politics, Terrorism, Education, and Crime. Conservative Firing Line also publishes syndicated political cartoons.

Typical headlines include “BLM Leader Threatens to ‘Rip’ Trump from White House, Calls for Revolution (Video),” “Over 200 Retired Senior Military Leaders Endorse Trump for Re-election,” “Report: Colorado Woman Beats 12-Year-Old Boy Over Trump Sign (Video),” and “Billionaire Bloomberg Determined To Buy Florida Vote for Biden.”

Criteria are listed in order of importance.

[More information.](#)

Articles on Conservative Firing Line are generally based on social media posts and reporting by other news sources, which range from credible organizations such as The New York Times to websites that NewsGuard has found to publish false and unsubstantiated claims, such as The Gateway Pundit and NaturalNews.com. The website often republishes articles from the sites listed above, with attribution.

Conservative Firing Line has repeatedly published false information and conspiracy theories.

For example, an August 2020 article, republished from AmericasCivilWarRising.org and based on reporting from BigLeaguePolitics.com, was titled “‘SHOCK REPORT: OBAMA-BIDEN ADMINISTRATION IMPORTED FOREIGN TERRORISTS TO BOLSTER ANTIFA’s RANKS’ – CONNECTING ALL THE DOTS, FOREIGN & DOMESTIC, TO ANTIFA/BLM TERROR!.”

The article related claims by a Ukraine-based journalist, George Eliason, that “The outgoing CIA director [John Brennan] beefed up a domestic insurgent movement with foreign fighters on behalf of the Obama-Biden administration.” The article continued, “Eliason noted that ANTIFA terrorists were trained in Syria as part of a Kurdish neo-Marxist fighting force. He believes that since ANTIFA are ‘part of an insurgency ground force with provable foreign government representation and foreign insurgents from terrorist groups,’ Geneva Conventions protections no longer apply to them.”

Both Black Lives Matter and antifa are decentralized, grassroots political movements, and are not led by any individual or group. The article did not provide evidence for its claim that antifa activists were trained in Syria alongside “a kirdish neo-Marxist fighting force,” nor could NewsGuard find any evidence of such a claim.

A July 2020 article titled “‘NEW INTEL: Communist China providing automatic weapons to Antifa, Black Lives Matter... some stored in Democrat-run government buildings including East End Complex Capitol building in Sacramento – Block 174’

(EXPLOSIVE VIDEOS),” reported that China had smuggled 10,800 gun parts into the U.S., and that some of the weapons had been stored in California government buildings.

The article, which was also republished from AmericasCivilWarRising.org, claimed, “California Gov. [Gavin] Newsom is involved in a trillion-dollar money laundering operation with communist China to keep him in power. He’s funneling taxpayer money to China, and they are laundering it and funneling money back to him. ... Using the laundered money, Gov. Newsom is stockpiling automatic weapons, ammunition and gold in the underground storage complex at 1616 Capitol Ave. in Sacramento, the East End Complex building – block 174 (Sourced from a former employee who worked there.)”

The article continued, “Gov. Newsom is plotting with China to have communist troops invade America (via California and other states) and to overrun and occupy the United States, turning it over to communist Chinese rule.”

To substantiate its claim that China was smuggling weapon parts into the U.S., Conservative Firing Line cited a June 2020 Customs and Border Protection press release. However, the release only stated that a shipment of weapons that had been intercepted in Louisville, Ky., came from China, not that the Chinese government had smuggled the weapons into the country.

While the government release did not describe the weapons parts, the Conservative Firing Line article said, “we have since learned from another source that the parts were drop-in full auto mods for AR-15 rifles.” NewsGuard has found no other evidence or reports to back this claim.

The article also cited an unnamed source to back its claim that the weapons were stored in a facility underneath the East Complex of the California Capitol Area that contains, according to the source, “vehicles, firearms, ammunition and gold bullion.” NewsGuard found no evidence to support this claim.

As evidence for its claim that Newsom was laundering money for China, the article pointed only to a Los Angeles Times story describing the state's \$1 billion contract with Chinese car manufacturer BYD to produce protective face masks in the early months of the COVID-19 pandemic. The Los Angeles Times article did not claim that Newsom was laundering money or collaborating with the Chinese government

ConservativeFiringLine.com has also published inaccurate claims about the COVID-19 pandemic. For example, an April 2020 article titled "Was the Coronavirus Created to Destroy U.S. Economy And Create a New Nation State? Welcome to the USSA," republished from TrueConservativePundit.com, claimed, "Now, here is the REAL problem – the Coronavirus is a created bioweapon with a specific purpose: the destruction of the U.S. economy, and possibly the world economy."

A February 2020 article titled "New book suggests Coronavirus a biological weapon," summarized the claims of a short book titled "Survival Strategies... Coronavirus Pandemic 2020: A Virus Weaponized in China for Biological Warfare." The article reported that "The book explains the virus changed, not only by its own mutation but by military virologists in China. This virus is apparently a biological weapon which escaped the Wuhan military virology laboratory."

The article claimed that Chinese spies working at Canada's National Microbiology Laboratory (NML) purportedly stole samples of the novel coronavirus and sent them to China. Then, it reported, "The Novel Coronavirus was evidently weaponized in Wuhan to be part of the Chinese biological warfare capability. ... Thus the weaponized Novel Coronavirus made it out of the Wuhan Institute of Virology and started doing what it had been engineered to do: sicken and kill people.:

Scientific evidence published in 2020 has concluded that the virus most likely has natural origins. A study published in the journal Nature in February 2020 found the new virus's genome is "96 percent identical" to a bat coronavirus. A March 2020 study published in the

journal Nature Medicine concluded that the virus “is not a laboratory construct or a purposefully manipulated virus.” In an April 2020 statement, the U.S. intelligence community said it “concurs with the wide scientific consensus that the COVID-19 virus was not manmade or genetically modified.”

There is no evidence for the claim the virus was stolen from a Canadian lab. In July 2019, the Canadian Broadcasting Corp. reported that two Chinese scientists were escorted from the National Microbial Laboratory, which is part of the Public Health Agency of Canada (PHAC). However, the PHAC told the CBC that the Chinese scientists were asked to leave due to an investigation of what it described as a “policy breach” and “administrative matter,” and that the matter was not connected to the COVID-19 virus.

“This is misinformation and there is no factual basis for claims being made on social media,” PHAC spokesperson Eric Morrissette told the CBC in January 2020 of the reports that Chinese scientists stole the virus from a Canadian lab.

ConservativeFiringLine has also published older conspiracy theories, which are still accessible on the website.

For example in August 2018, the site published a story about how Hillary Clinton’s “ASSASSINATION SQUAD” killed DNC staffer Seth Rich in 2016. According to the article, “BY the bye, Rich had to die, at least, according to the cost-benefit analysis of Clinton Inc. and Obama Inc. Effectively, he was too hot and toxic to keep among the living, hence, a precipitous liability. Simple as that. RESULTANT, [former DNC Chairman Donna] Brazile, as a long-standing Clinton operative, became neck-deep in Rich’s hit-job and its aftermath. Cover-up.”

The article did not explain why “Rich had to die,” but cited a story published on a site called BillLawrenceOnline.com, which stated that “Julian Assange has strongly hinted that Rich was the source for the Wikileaks revelations that showed the DNC rigged the 2016 presidential primary against Bernie Sanders.”

Rich, a data analyst for the DNC, was fatally shot on July 10, 2016, on a Washington street. While no suspects were arrested in his death, Washington's Metropolitan Police Department has said that Rich was killed as a result of a botched robbery. FactCheck.org consulted police records and statements of Rich's family members made to the media to conclude that there was no evidence that Rich had leaked the DNC emails to WikiLeaks or that Democratic operatives had any part in his death.

Because the site regularly promotes unproven conspiracy theories and unsubstantiated claims, NewsGuard has determined that Conservative Firing Line repeatedly publishes false information, does not gather and present information responsibly, and does not avoid the use of deceptive headlines.

Asked about the site's publication of false information, site owner and editor Newby told NewsGuard, "the posts you chose to use were the opinions of authors responding to other reports. The last time I looked, we are allowed to have and express opinions without getting your approval. As for BLM, the co-founders have openly stated they are trained Marxists. They and Antifa have made their objectives clear. They want nothing less than the destruction of America."

Newby also charged that NewsGuard "target[s] conservative/libertarian opinion sites for gaslighting/destruction while turning a blind eye to the never-ending blatant lies and smears from MSNBC, CNN and others," and said that NewsGuard's review of Conservative Firing Line only noted "a tiny handful of posts while completely ignoring the nearly 15,000 articles we have produced."

The site does not articulate a corrections policy. NewsGuard found corrections published by the website in March 2020, June 2017, and May 2016. However, because the website does not frequently publish corrections, and has not corrected false claims such as in the stories cited above, NewsGuard has determined that Conservative Firing Line does not meet NewsGuard's standard for regularly correcting errors.

Newby did not answer NewsGuard's questions about the site's lack of corrections in his emailed response to NewsGuard.

Conservative Firing Line discloses its political orientation on its About Us page, where it states that it was founded "in an effort to inform, educate and inspire grassroots conservatives at all levels."

The website publishes columns in a labeled Opinion section. However, articles published outside that section routinely include opinionated language, which is why NewsGuard has determined that the website does not handle the difference between news and opinion responsibly.

For example, a September 2020 article published in the Politics section, "Black UNC Prof Falsely Claims: 'They Have Deputized All White People To Murder Us'," stated that "If this is the kind of crap they are being fed in schools, it's no wonder they are churning out so many little Marxist brick-chuckers!"

An August 2020 Politics article, "Hillary Clinton to Joe Biden: Do Not Concede on Election Night 'Under Any Circumstances' (Video)," claimed, "The hypocrisy on the left side of the aisle is incredible. In fact, they seem to have it in excess." Another August 2020 article in the Politics section, "Fomenting Civil War: Unhinged Pelosi Calls Trump, GOP Enemies of the State, Domestic Enemies (Video)," argued that "This, America, is your Democrat Party. They truly hate your guts. Let that sink in, and remove every single one of them this November."

Asked about the website's approach to separating news from opinion, Newby said that "As for our opinions, we will not change them to suit you or any of the George Soros sock-puppets at NewsGuard."

Transparency

Conservative Firing Line does not state its ownership on the website, although Newby identified himself as the owner in an email to NewsGuard.

Although Newby's author page states that he runs Conservative Firing Line, he is not centrally identified as its editor. The Contact Us page provides a generic contact form for users to ask questions.

In his emailed response to NewsGuard, Newby did not address questions about the site's lack of disclosure of ownership or editorial leadership.

Advertisements are not clearly distinguished from editorial content. Sponsored articles often appear under headings such as "Promoted Content," "Trending," "Around The Web," and "Popular in the Community," which does not meet NewsGuard's standard for clearly labeling advertising.

Asked by email in September 2020 about the site's the site's labeling of its advertising, Newby told NewsGuard, "As for the content of the advertisements on our site (which, for the most part, we do not control) or the way we run our blog, that is, frankly, none of your God-damned business. I think you can figure out for yourself what you can do with those inquiries."

Articles are generally attributed to authors, although some articles are attributed only to "CFL Staff." However, NewsGuard found that most author pages do not provide biographical or contact information, which does not meet NewsGuard's standard for providing information about content creators.

In his emailed response to NewsGuard, Newby did not answer questions about the site's lack of information about content creators.

History

ConservativeFiringLine.com launched in May 2012.

Correction: An earlier version of this Nutrition Label stated that the website's headlines accurately reflect the stories' content, contrary to the determination in the criteria checklist that the website did not meet NewsGuard's standard for avoiding deceptive headlines. The label should have reflected the checklist and stated that ConservativeFiringLine.com does not avoid deceptive headlines. NewsGuard apologizes for the error.

Editor's Note: This Nutrition Label was updated on Nov. 2, 2020, and its rating was changed, to reflect NewsGuard's determination that ConservativeFiringline.com no longer meets NewsGuard's standard for clearly labeling advertising, for revealing who is in charge, and for providing information about content creators.
