WHO Report

COVID-19/vaccine misinformation on Instagram

December 17, 2020
This account shares articles from almost exclusively NewsGuard red-rated health websites spreading misinformation about COVID-19 and vaccines. The account actively shares misinformation in the comments section as well.
One of the most influential antivaxers on social media. He runs Childrens Health Defense, an antivax non-profit that spreads misinformation about vaccines. Below, a post promoting the Bill Gates microchip conspiracy.
In 2020, Children’s Health Defense advanced false and misleading claims related to the COVID-19 pandemic, including the claim that wearing a face mask can cause health problems. A May 2020 article headlined “The Risks vs. Benefits of Face Masks- Is There an Agenda?” said, “Wearing a face mask causes one to re-breathe the carbon dioxide (CO2), that the lungs are attempting to expel. This in turn reduces the immune response, negatively affects epithelial cell function (cells in the lungs and blood vessels) and lowers the amount of oxygen exchange across the alveolar membranes.”

Children’s Health Defense based its claim on an article from Dr. Russell Blaylock, a retired neurosurgeon, posted on the anti-technology website Technocracy.news, which NewsGuard found to have repeatedly published false content.

The website of an anti-vaccine nonprofit chaired by Robert F. Kennedy Jr., which has published false and unproven scientific and health information, including about the COVID-19 pandemic.
This account shares misinformation about COVID, masks, and vaccines.
Proceed with caution: This website severely violates basic journalistic standards.

A two-site network based in the UK that has produced videos and interviews promoting false claims about the COVID-19 pandemic and the September 11, 2001, terrorist attacks.

testing their COVID-19 vacines: Mod ern, P fizer, Astra Zen eca and Johnson & Johnson. All of them have reported side effects in trial participants after giving the shots. Two companies—AstraZeneca and Johnson & Johnson—have paused phase 3 human testing in the U.S. after several volunteers fell so ill that it worried health regulators.

Dear Friends,
I have just watched Pandemic: INDORATION WORLD PREMIERE on the Digital Freedom Platform - London Real.
Created by the team behind the game-changing Pandemic video segment from Milli Willis featuring Dr. Judy Mikovits that went viral and was banned on every major social media platform for exposing the truth about Covid-19, this new FEATURE-LENGTH PIECE promises to be the most revelatory film on what is driving the vaccine agenda, the various roles of the WHO, Bill Gates, Tedros Adhanom, Anthony Fauci and more.
Going deep into what is really happening with mainstream media,
A website that says it aims to create “liberty minded solutions to modern day tyrannical oppression,” which has published false content about topics including vaccines and the 9/11 attacks.

A DOCTOR THE CDC DOESN'T WANT YOU TO KNOW ABOUT: DR. PAUL THOMAS

Dr. Paul conducted a peer reviewed study comparing his vaccinated child patients with his unvaccinated patients. The results clearly showed vaccinated children are tremendously sicker. The CDC has never published a study comparing VAXXED VS UNVAXXED & ALL THEIR STUDIES ARE MISLEADING & DOWNRIGHT FRAUDULENT.
