We Brought Vaxxed to the UK

About VAXXED FROM COVER-UP TO CATASTROPHE is the film that documents the investigation into how the CDC (Centers for Disease Control and Prevention), the government agency charged with protecting the health of American citizens, concealed and destroyed data on their 2001 study that showed a link between the MMR vaccine and autism. This alarming deception has contributed to the skyrocketing increase of autism, potentially the most catastrophic epidemic of our lifetime.
