

FALSE  
NARRATIVE

## Thirty New Zealanders died after receiving COVID-19 vaccines at same clinic

---

### The False Narrative

Thirty people who received a COVID-19 vaccine on the same day at one New Zealand clinic died shortly after vaccination.

### The Facts

There is no evidence that 30 people died in New Zealand shortly after they all received a COVID-19 vaccine on the same day at the same clinic, according to New Zealand health authorities and health experts.

Chris James, group manager of New Zealand's medicines and vaccines regulator Medsafe, told NewsGuard in an October 2023 email, "No reported deaths to Medsafe match the claim as reported."

Christian Marchello, a vaccine safety surveillance and research manager at the Te Whatu Ora public health agency, said in an October 2023 statement to NewsGuard, "Publicly available data shows that four deaths in New Zealand are possibly linked to adverse reactions following COVID-19 vaccination."

The claim apparently originated with Liz Gunn, an anti-vaccine activist and leader of the New Zealand Loyal Party. In an Oct. 21, 2023, video posted on her FreeNZ

channel on Rumble, Gunn said that an unnamed whistleblower, whom she described as “a clinician/mathematician who is very experienced in statistical analysis” had identified many deaths caused by COVID-19 vaccines.

“Let me give you just one of many examples,” she stated. “On one day, 30 people were jabbed on the same day at the same location. All are now deceased and their deaths are in close temporal time proximity to each other.” Gunn provided no data to back her claim and did not name the clinic supposedly linked to the deaths.

“This claim from Liz Gunn is obviously absurd,” Dr. Michael Baker, an epidemiologist at the University of Otago in Wellington, New Zealand, told NewsGuard in an October 2023 email. “Even one unexplained death immediately following vaccination would result in a major investigation. Multiple such deaths occurring on the same day and at the same vaccination site, as she has claimed, would be a health emergency triggering a vigorous response to identify and control the cause. Such an event would have huge media coverage, particularly if a vaccine was implicated.”

## **How the False Narrative Emerged**

As mentioned above, the false narrative apparently originated with Gunn’s Oct. 21, 2023, video, which had been viewed 243,000 times on Rumble as of Nov. 3, 2023. The video was presented as the culmination of Gunn’s previous pledge to reveal what she called “the mother of all revelations,” after the Oct. 14, 2023, New Zealand general election. (Her New Zealand Loyal Party won 34,000 votes — just 1.2 percent of the total – earning no parliamentary seats.)

## **Where the False Narrative Spread**

The narrative was advanced on multiple websites with low NewsGuard ratings, including on sites based in New Zealand, Australia, France, the U.S., and the U.K.

For example, the U.S.-based misinformation website The People's Voice published an Oct. 22, 2023 article headlined "Official Data Shows Every Single Patient Vaccinated at Clinic 'Died Within Weeks.'" Referencing Gunn's baseless claims from her Rumble video, the article stated, "Investigators have discovered that every single patient who received a Covid mRNA vaccine from one clinic died suddenly shortly after the jab, within the same timeframe."

Gunn's video was also reposted on X (formerly Twitter), TikTok, and Russian social media platform VK. In one X post, the anonymous account @BGatesIsaPsycho, which has 120,000 followers, said, "This story is true from New Zealand. 30 people - all vaxxed in same clinic - all dead. A NZ Politician also just confirmed it on TV."
